A full stack developer with experience in both front-end and back-end development and proficiency in various programming languages and technologies. Has a passion for creating high-quality and user-friendly software solutions, and is committed to ongoing learning and career growth. Currently seeking new opportunities.

Work History and Leadership

Genius

July 2018 - November 2021

Apple, Murray, Utah

- Provide technical solutions and hands-on repairs for Apple products, 25+ appointments daily
- Maintain customer-focused and productive work environment
- Develop team members by giving specific feedback
- Stay updated with product evolution and changes
- Achieve high customer satisfaction targets
- Promote Apple services and products effectively

IT Technician

August 2017 - November 2017

Missionary Training Center, Provo, Utah

- Communicated technical information clearly to non-technical individuals
- Provided end-user support and managed office technology
- Configured and monitored computer systems within frameworks
- Connected computers to peripheral equipment and networks

Missionary

March 2015 - March 2017

The Church Of Jesus Christ Of Latter-day Saints, Melbourne, Australia

- Spent two years teaching English and sharing church teachings with individuals from diverse backgrounds in Mandarin, Chinese.
- Led a team of 9 volunteers, including weekly training meetings and progress reports to Mission Offices.

Education

November 2022 - March 2023

Coding Bootcamp Full Stack Developer Certificate

University of Utah - Salt Lake City, UT

- Proficient in front-end and back-end technologies such as HTML, CSS, JavaScript, and databases like MongoDB and MySQL
- Experienced in command-line tools and agile methodologies
- Collaborated on building functional web applications, including three from scratch
- Designed responsive websites that meet industry standards

Personal Projects

I have experience working on team projects and have completed personal web projects, including:

- Personal movie collection website built using React and Tailwindcss, deployed and managed through Firebase.
- Responsive portfolio website built using React, Tailwindcss, and deployed through GitHub pages.
- Kayak rental platform project for a client built in React using Tailwindcss.

I am committed to continuous learning and enjoy exploring new skills through videos and practice.
